Information and Communications Technology Engineer  
[cesarvillalobosolmos.01@gmail.com](mailto:cesarvillalobosolmos.01@gmail.com)

## 👤 About me

IT Engineer and Full-Stack developer with experience working in the creation of real projects at various scales, both as a freelancer and in collaboration with teams in business environments. I am currently close to finishing my professional studies. I am open to new job opportunities that give me the possibility to grow professionally and contribute my knowledge in problem solving.

## 📁 Professional experience

### Mobile App Developer

#### Swopyn

January 2024 — Present

- Active participation in the development of mobile applications and the creation of Back-End services oriented to Microservices.
- Collaborated closely with design and product teams to ensure smooth and effective delivery of features.
- Technologies used: React, React Native, Java, Spring Boot, Docker and cloud services with AWS.

### Practicing Back-End Developer

#### CADSITA, Technological Institute of Aguascalientes

August 2022 — December 2023

- Team leader in entrepreneurship projects, ensuring the use of good development practices, clean code and scalability.
- I actively contributed to the team's continued success by mentoring new members and coordinating tasks.

### Social services

#### MOOC, TecNM

August 2022 — January 2023

- I designed and developed an inclusive education platform for people with disabilities.
- Focused on accessibility under W3C standards, which allowed a 40% improvement in usability for users with disabilities.
- I collaborated with an interdisciplinary team to integrate functionalities that met various educational needs.

## 🎓 Education
